The most important municipal election ever held in the city took place yesterday, and while the most inbounded interest was manifested by both parties, we are glad to say that not a single disturbance was re-

At an early hour—even before the rising of the sun yesterday morning, carriages and vehicles were seen standing at the doors of the Radical officials, and upon the opening of the polls at 61 o'clock, the streets were alive with the whirl and busy tumult of passing trains, of old, blind, demented and superanuated negroes en route to the polls.

The Democrats were however not idle, and went to work at an early hour with a vim and energy that betokened the victory that crowned their efforts at night fall.

Both parties were thoroughly organized, the leaders had every voter counted, and so close was the respective count that both claimed the advantage. The democrats worked with a zeal never attempted before. workmen left their shops, merchants their stores, and salesmen their desks their labors till sunset, when the last poll was deposited. Such work and devotion to party was really deserving of the brilliant success that crowned their efforts at the

THE BLOODY FIFTH. Here was the point for work, and close work. It was in this Ward that the Rads carried out their infamous squatting scheme. It was this Ward that the Rads swore they would carry, if it had to be done by bloodshed. Rumors were affoat early in the morning that the excitement was intense at the polls and a conflict was immineht. TO THE PUBLIC.

For the second time since my connection with the editorial staff of the DALLY NEWS, I am called upon to appear in my own columns in a personal article. I regret it, regret the necessity, but as designing and pecuni-arily interested parties have sought by the use of the city press to place me in a false light before the public, I take pleasure in using this means to vindicate myself, and at the same time show up in their true colors those who would traduce me.

To begin with the beginning, T will state that as City Editor of the DAILY NEWS. I saw fit to write the following article for said paper, which appeared in its proper place, on Tuesday morning of last week:

"LECTURE LAST NIGHT.—A lecture was to have been delivered last night at Common's Hall, by one Misselsabella Armstrong, of England.—Whether it came off or not we have not been advised. We did not attend, from the fact that Miss Armstrong came to the city in company with a negress, she seemed to have especial, we may say civil-ritish regard for. We happened to be on the train that brought Miss Armstrong and her pet companion to the city, and both occasion cupied the same seat, at at the same table at the eating-houses, took the same carriage at the Central Depot, and stopped at the same house in the city. While we mean to cast no reflection on any who did attend, yet our preference was to stay away."

I certainly would not have penned the article had I not been fully sustained by the facts. The disgusting familiarity between Miss Armstrong and the brazen faced, impudent Northern brogued negress was not only observable but, the common topic of conversation on the cars. That she ate breakfast with the negress at Franklin, she does not deny, and the other facts as stated will not

smart" that results from the fash. be denied. on allow I was on my return from Granville Court, where I had spent the week, and knew nothing of the coming of the lecturess, or the character of her subject. But had she been sent for by any clergyman of this city to lesture upon Church topics exclusively; much less Temperance, I certainly would have given her the same dose. And, just here I will remark by way of parenthesis, that so long as I am connected with the editorial staff of the DAILY NEWS I shall attack with all the power at my command the insiduous introduction of Civil Rights in my State, and defend the the "hair on the hollow," and purity of Southern female society from the contaminating influence of so-called Northern or English female Philanthropists, when they come to

us in a questionable shape. But I am digressing. On Tuesday evening Mr. N. B. Broughton came to my office and asked what about that article in the NEWS of that morning in regard to Miss Armstrong? I told him that it was true to the letter. He said, she bad prepared a card for publication denying it. I remarked to him, "all right, I'll give her the use of my columns, but she must bear the consequences of my reply, as I would certainly be much more severe." He then asked who else saw this besides myself. I mentioned the names of several gentlemen that were on the train, among the number, a prominent city merchant doing business near the News office. This gentleman Mr. Broughton and myself consulted .-His statement was corroborative of that published in the News. Mr. Broughton then remarked: "I am satisfied now, and only wanted to learn all the facts that I might know how to guide my actions in the matter, she being invited here by myself." Myself and Mr. Broughton left the store, and outside, on the street, he remarked: "Woodson, I regret the matter exceedingly, as it may cast discredit on the Order, and moreover I am individually responsible for her expenses while touring the State. Now, I ask you to say no more about it, and I will withdraw this correspondence of her's whtil I can see he again." "It is all right with me," I replied; "I have already had my say." Thus the matter ended.

That evening the woman went to Durham but with a white servant, as I am informed. I went to Hillsboro to attend Orange Superior Court -While there I was surprised to find in the News of the 18th inst., th following card: RALEIGH, April 29th, 1875.

To the Edutor of the Daily News: Sts: A paragraph appeared in your issue of Tuesday the 27th, which has paired and astonished me beyond measure, based as it is on an assumption entirely foreign to my principle and practice. In connection with this card appeared the following editorial note written by Mr Stone.

written by Mr Stone.

"In justice to this lady, we publish a note from her explanatory of the only point in the charge which appeared in our columns of Tuesday which needed notice—the fact that Miss A trastrong ate at the same table with her servant woman at Franklin, Va., which fact Miss Armstrong states was occasioned by a mistake, and upon which our article was based. This is what we cheerfully do, and at the same time submit the note without further comment. Capt note without further comment. Capt Woodson, the writer of the para-graph complained of, being at pre-sent absent from the city:

On the following day the daily pa pers of the city contained a card from Mr. Broughton, two columns in length, in which he complains bitterly of the article first written by myself and the subsequent article of Mr. Stone, in which he (Mr. 8.) fails to retract the original. As to the card of Mr. Broughton I care but little about, and only notice it on account of its extensive publication and paid for circulation. Some few might believe the many misrepretations therein contained and therefore will briefly dissect the most impor-

tant points. First, Miss Armstrong admits that she ate at the same table at Franklin with the negress, but observe how mildly she draws it : "I requested the proprietor to provide that meal for my servant, and being the only lady for breakfast, took a seat at the vacant table, when my servant was immediately placed at

the same table," This will do to tell the marines, but not old soldiers. I do not believe that any good Southern man in the State of North Carolina will believe that the proprietor of a Southern betel would forcibly seat a negro at his dining room table with his white guests, Mr. Broughton does not be-Heve it- but it is the only weapon to kill Woodson's article against my philanthropist, whose expenses through the State I am bound for and must pay." quel a bear

Again, Mr. Broughton says: "I have been receiving telegrams and letters for the past two days from points where this lady was to lecture, asking me not to send her—all calling attention to the first article that appeared in the NEWs."

Now we come to the milk in the cocoanut, or as Jo Turner would say, could very well rest my case here without further remarks. The News article did prevent her from securing even hotel accommodations in Hillsboro, slammed the doors at Goldsboro in her face and caused the proud little city of Wilson to say, Mr. Broughton keep your woman in Raleigh. It was the object of the article, and we are glad to know it did its work well. Standing on the watch tower as the paid sentinel of the News, I shall, regardless of consequences, fear of Mr. Brouhton, orany other man, warn the people of coming dangers, to our pure and as yet uncontaminated Southern society.

"Now I ask, what excuse is there left to a newspaper that thus wantonly assalls a defenseless woman? One laboring in the interest of humanity? Shall the act be condemned by a peo-ple who claim to be charitable and chivalrous? Shall a stranger and lady thus come to our State and be libelled and slandered without the parties to the same being denounced and condemned?"

There is nothing slanderous in the article, and the 'defenseless woman". is only assailed upon a fact that she admits. We only charged that her conduct with the negro was civilrightish, and if that was slanderous, then she and ber friends must make the most of it.

I think I have stated all the facts pecessary to show that the article written by myselfin regard to Miss Armstrong's lecture was not ill advised, or hasty in its conception; that I was prompted by the purest motive in expressing what I conceived to be an innovation on that priceless jewel, one of the few left us from the war, the purity of Southern society, de. I regret the object of my critique should have been a woman. I regret that in breaking up this little financial arrangement, the burden fell on our own worthy eitizen, I regret that Mr. Broughton, for whom I have always had the kindest regards and yet have, should be unwittingly mixed up in an ugly affair that will not redown to his credit, but I do not regret or retract one line written.

As before stated, I hereby give notice to all whom it may concern that whenever an affair of a simular nature occurs, regardless of who may be pecuniarily or otherwise interested, iu whatseever guise or shape it may appear, I will attack she, him or them through these columns, "so help me." E. C. WOODSON.

P. S.-Since the above was in type the following letter has been received which is a "clincher" to the whole affair and settles the question beyond all doubt as to the "civil-ritish" proclivities of this philanthropist. And this is the woman who is ushered before a Rateigh public to end our society in the way it should o visit the principal towns of North ders for sale by E. F. JOHER & CO.

equality in our society. And, for a just and Hightenus attack on the movement, here I and the NEWS bave been assailed by Mr. Broughton and (to their discredit) a

part of the city press. I now propose to leave the matter to the public as it stands, and will not notice it further, unique an attempt is made to force this civilrighter again on the North Carolina

The clerk informed her that her servant could eat at the side table. She immediately passed in and took a seat at the side table, and the servant sat down beside her. As we write, the Municipal election of this city, under the amended charter, is progresing quietly, with no prospect of a disturbance of any character, and we believe the result will be to place the city in the hands of the Conservative party. In the Fifth Ward, that portion of the city which has been the field of the "squatter" operations of the Radicals of the city, everything was progressing quietly at 4 o'clock, and in no case has a known "squatter" been allowed to vote. the judges of election bringing the law to bear upon all suspected parties. Our local columns will give a full statement of the transactions of the day and we think we hazard nothing in announcing a victory for the Conservative party of Raleigh.

THE Washington Republican evidently doesn't like the manner in which Judge Kelly speaks of the South-it takes all the thunder out of the Republican's line of policy. Here is the way in which it refers to the Judge's late visit to the HERVEY KABE, Seer HIDO to the State and the pride of her

"When a man gets ready nowadays "When a man gets ready nowadays to desert the Republican party he begins by going crazy over some finance scheme, and then makes a trip through the South; after which he informs the people that the Southern policy of Congress and the Administration is all wrong. Ignoring the fact that no political provocation the fact that no political provocation exists to disturb the quiet of that section, and forgetting recent occur-rences, the recreant gushed over with sentimental admiration for the Southern Democracy, and spouts their praise as peaceable, law abiding citi-zens, who love the blacks as they love

It is not to be expected that such interested parties as the Republican, "Grant's kitchen organ," can see any good coming from the South, but may we not hope that the great honest heart of the North will believe the testimony of its own witnesses, especially when those witnesses are to be found in the person of such men as the Hon. LIBERTY OF THE PRESS.

There is nothing more true than for the best interests of society the freedom of expression through the press should be restricted within such bounds as are dictated by the course gentlemen would pursue towards each other in personal intercourse. Such a restriction would deprive the press of all its asperities, and would effectually avoid all those contentions which disturb the public mind, and array editors in unfriendly feelings toward each

other.

We have avoided all personalities, all personal all amounts of language in our connection with journalism. We conceive a public journal, in a certain sense, the prcperty of the public, and not so much the vehicle of private feeling and private animosity as it is the medium of public opinion. It is not fit that that opinion should be distorted, and the public should be drawn in as unwilling participants in the disagreements of editors.-For our own part therefore, we have had little to regret, because we have avoided the course which would give occasion for recrimination.

\$100 a year for five years. Though I have no boys to send to the old College, (as yet) and am a man of very moderate means, I will be one to pledge that sum, for the purpose, and will consider myself as doing but an act of filial duty in making the pledge.

If a ball of this sort is set in motion, men of wealth like Judge Grant of Iowa, and Mr. M., and Mr. C., and others in this State, will doubtless come forward and the average be raised above the sum indicated. Let this appeal go out at once, and a response be requested at or before s It happens, however, that the journal with which we are at presen connected was from its origin an ob ject of hostility to the editor of the Sentinel and the object of the mos untiring pursuit and unfounded spouse be requested at or before a meeting of the Trustees, (and of the Alumni Association too, if need be, at Chapel Hill, on the first Thursday in June, the old commencement day With a good corps of Professors. misrepresentation. With the impetus received at starting, the institution will be able to keep on its course of usefulness and honor, naturally produced some retaliation, in language which may well be justnts course of usefulness and honor, until it is again the pride and ornament of the State and country.

I believe it is contemplated that,

at present those professorships only are to be established which have

some relation to an agricultural course. This would not afford opper-tunity of instruction to the youth of

the country, who wish to become merchants, or lawyers or teachers, and therefore the number of stu-

dents at first would, of course, be

small, and matriculation fees insig-nificant, so that nearly the whole

of burden of the salaries of the Professors would be thrown on the

appropriation made by the Legisla ture. It would be otherwise if a full

NORFOLK, VA., May 1.—Constable James' Batton, of Princess Anne county, was murdered on the road to town this morning just before daybreak. He and his son were driving break. He and his son were driving along the road, and when they reached Wright's farm they were rushed upon by persons ambushed and shot and clubbed, killing Mr. James Batton, the father. So says the son, who was uninjured and escaped to a neighbor's and gave the slarm.—When the neighbors reached the When the neighbors reached the when the neighbors reached the scene they found the horse and the wagon hitched up to the fence and the body of the father dead in the wagon. Batton and his son were both armed with revolvers.

From one version of the matter it appears that the cart was approached by the state of which first of

appears that the cart was approached by three men, one of which fired at Batton, killing him instantly, the shot literally tearing away the back part of his head; after which they robbed his person of \$300. A NEW JERSEY RELIC.-A cannon A New Jensey Relic.—A cannon ball is preserved in the office (bureau no longer) of the Revenue Marine, in the Treasury Department in Washington, which deserves to become historic—if cold iron can be said to deserve anything. It weighs twenty pounds, if our recollection is correct, and is a plain, rough shot, with a cord at ached to it. In a storm which occurred on the coast of New Jersey, many , ears ago, it was thrown from a mortar with a line fastened to the ball, and passing over, fell beyond a boat which was stranded and in danger of going to pieces. The line was tied to a cable on the shore, and the poor wrecked people drew this in and fastened it to the vessel. On this ca-ble a life-car was passed backward and forward from the ship to the shore, by which means two hundred lives were saved. The ball was pulled in and retained. It was sub-sequently sent to the headquarters of the Revenue Marine Department, where it has since been carefully preserved, and where it is always reviewed with much interest by people who are laformed of its history. It would have sunk a "seventy-four" and never been heard from.

That lively old gentleman, Baron Waldeck, has just died in Paris, in his one hundreth and teath year. For a century or so he was very active both in the social and artistic world, and he did not lose his interest in affairs up to the time of his death. In many respects Waldeck ally in the patience he exhibited in remaining on this planet long after the friends of his youth—and of his age, too, for that matter—had go re to a brighter and a happier sphere.

THE OSHKOSH CALAMITY. st mated Loss Two Millions, of which one balf is supposed to have been Insured-Gred is Satd

be the Cause of the Fire.

We give below some additional esting particulars of the terrionflagration that last week desed the city of Oshkosh, Wis: CHICAGO, April 30.—A special distact to the Inter-Ocean from Oshsays: There is no possible way rriving at the loss to insurance panies by the Oshkosh fire, all the agencies but one, have burned out and the books are fusion, while the books of one ev are burned. The total loss is thought to be greater than first reported, and is now put at 00,000. It is estimated in generrms that the insurance is 50 per t of the loss. About three hunfamilies are burned out, and reis much needed. There is no ouragement among business and the feeling is strong that uilding must commence at once A CITY DOOMED TO THE FLAMES. A dispatch from Fon du Lac to the its says: A deep pall hangs over city. Five times since its founion has conflagration visited it, the present calamity is the mos shing of all. This is the third ted it. This fire has taken most he fine residences and homes. citizens seem utterly hopeless walk the streets with sad faces.

y cannot tell at present. OBSTINACY OF ONE MAN DID IT. shkosh lies on a flat piece o ind, and there is almost a conous southwest wind, which, on occasion, was blowing with twiolence. It has been the cusin Oshkosh latterly, when a vy westerly wind was blowing, mills, which are situated in stern part of the city, to stop rk to prevent fires. A number of is shut down on Wednesday, noon, pandling and Peck refused to and when Mr. Morgan asked ptly that he (Peck) intended to own business. Shortly after Morgan Bros.' mill was observed on fire, and in a few minutes whole building was in flames fire companies and thousands of ens were promptly on hand, but of the mills so combustible that fire could not be stayed, and dily drove them from place to e, advancing to to the heart of

ROASTED TO DEATH. Mr. J. N. Davis, a clerk in the emsome books from the mill, but sted to death before he could fin way out, and expired soon after hing the open air. The air was with shingles and cinders, bore destruction to houses at at distance from the actual fire, the flames advanced rapidly ard the principal thoroughfares the most sanguine gave up the of checking them, and the city devastated, as already described.

RAPID SPREAD OF THE FLAMES. NEW YORK, April 30.-A special that Spaulding & Peck refused hut down when requested to do so Morgan, and the general belief Morgan Bro's. mill was fired by k's smoke-stak, says the fire dement, consisting of three steam ad one hand engine, was on the ert, expecting a conflagation. Upon e breaking out of the fire they ere ready, but were compelled to treat as it advanced. The fire was eading with great rapidity to all the lumber yards. When the fire got into the brick blocks they went down like butter. When stores had stood but five minutes before, nothg remained but a heap of rubbish.

Once beyond Division and Main the fire spreed north, south and east Streets, with the speed of a race horse, The people had but time to look at the advancing enemy and fly. Hund-reds had to abandon everything they possessed on earth except life. entire district east of the brick blocks was one sheet of flame.

A WARNING TO OTHER CITIES. No attempt was made to save it. The use of powder, which had been advocated, was not resorted to, there being no powder at the disposal of the chief of the fire department. As there is not a hook and ladder company in the city houses could not be pulled down or destroyed, and the fire had to be left to take its course. When once it passed Division street it quietly exhausted itself, after ravaging all within reach, between mid-night and I o'clock Thursday morning. Assistance in the way of steam engines came from Fon du Lac, Ripon and Neenah. The statement that the powder magizine had emploded had no other foundation than the explosion of a quantity of blank car-tridges in the store of Mr. Percy, on

Main street, which he had been unable to remove. BURIED UNDER THE RUINS. Charles Dunn, a spectator of the fire on Main street, who was examin-ing the walls of Harding's opera house on that thoroughfare after the fire had burned itself out, had imprudently approached close to the building, when the walls still standing fell and buried him in the ruins. The corpse was dug out much disfigured. It is claimed by those present at the time that two others were buried under the debris, but there was no rea-son to believe this was true, as close examination has been made, and there appears no pessibility of any bodies being buried out of sight.— Some five or six persons are reported

injured by falling walls and burns, but the cases are not believed to be WIDESPREAD SUFFERING. There is scarcely a man or member of a family in Oshkosh who has not lost his homstead or house full of furniture, or stock of goods, or who has not a relative in that position. Estimate places the insurance at \$1,000,-000; but this is a purely an estimate. The sufferers by the fire were all cared for by nightfall yesterday. During the morning the very air seemed to predict a conflagration, and warnings were heard on all sides. During the progress of the fire unbridled horses, let loose from livery stables, came dashing through the crowded streets, runaway teams came tearing by, while yelling and screaming from man to man became terrifying. It

was a wild scene. PROSPECT BRIGHTENING. A special to the Times from Oshkosh says the prospect at that city is already brightening, and the prob-abilities are that before winter the majority of the husiness blocks will be rebuilt.

The debris is cleared away from the principle streets, which are thronged with visitors who have ruins. Insurance men are present from all parts of the country. do not take a discouraging view of the conflagration as a general thing, and not a few have declared they will stand ready to renew their risks. The structures burned down were generally pretty well insured, and are owned by men who can afford to rebuild. The vaults of the First National Bank were opened to-day, and the contents found intact. Sixty-nine business structures were des-

About one half of these will be rebailt immediately. FIVE HUNDRED DWELLINGS BURNED.

The police to-day made a careful count and found that, large and small the sum total of the dwellings destroved is about five hundred. are valued at an average of \$2,500 each, which gives an aggregate loss of \$1,250,000, which is probably near the correct figure. The loss on business houses is about \$1,000,000, and on the lumber interest from \$200, 00, making a total of about \$2,500,000, on which the insurance is fully 1,000,000. The agency that did the most business lost all its books, but have nearly arrived at the correct figures of their losses.

A New York paper credits ex-speaker Blaine with having said last-fall "that the Beecher scandal had cost the Republican party its su-premacy; that too much progress was the trouble with the party. We had progressed through the States and made them into provinces, and now this infernal business threatens to exhibit republican chiefs in the role f progressing clear through the famly circle," and that the people would not stand it.

WHAT THE Norvous Require.—What the nervous require more than anything else is invigoration. Sedatives alone will not core nervousness. The reason that the nerves are so suvceptible is that they are weak. Compensate for this deficiency of trength, and over-acure nervous sensibility disappears. The most rational, wholescene, and arresphetomic is thosterer's Stomach Hitters. Medical men recommend its me for the cure of general debility, knowing it to ossess stringth-giving properties of the highest order, and at the same time to be a means of reforming those bodily irregularities which induce nervousness and joys of vizor. It is the best wonsness and loss of vigor. It is the best known remedy for dysp psis, whether ner-vons or billions, and is powerfully censery-ative of a regular habit of body. As it is ntive of a regular habit of body. As it is noterious that those who are afflicted with weak nerves, billiousness or constipation, are peculiarly liable to the influence of malaria, it is invaluable to such persons on account of its preventive efficacy. It endows the body with health, and the mind with cheerinfluess.

WHANN'S RAW BONE SUPER-PHOSPHATE

is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable conceaurated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the tertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. On

Cotton, Corn and Tobacco

WHANN'S PHOSPHATE has produced the most gratifying results, in many instance far exceeding the most sangulue hopes of those who have used it.

We offer this renowned fertilizer for the coming season, assuring our friends that the same high standard which has always characterized it shall be rigidly maintained.

Reed the following opinions of some who have used WHANN'S RAW BONE SUPER-HOSPHATE: PHOSPHATE:

Messra, Williamson, Upchurch & Thomas,
Gentlemen:—The ton of Wharm's Raw Bone Super-Phosphate purchased of you last
Spring made the best crop of cotton I ever made, and I consider it decidedly the best
fertilizer I ever made, I want it sight next season.

Yours truly,

8. W. MITOVELL

Messrs. Etng, White & Shaw:
Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone SuperPhosphate, I unbestatingly say that by comparison with other fertilizers during the
lest three years, I am satisfied that Whann's has turned out better crops for me than
any other, and I expect to contise to use it.

JoHN E. THOMAS. Measur. Williamson, Upoharol & Thomas, Raleigh, N. C. :

Dear Sirs:—At the Orphan Asylum in Oxford, a very dedified success has attended every application of Whatn's Raw Bone Super-Phosphate. The land was peor, and the season dry, but the cross surpass dour ex cetations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLS, Supt. Oxford, N. C., Dec. 15, 1874.

Louisburg, N. C., November 7, 1874. Messrs, King, White & Shaw:

I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with it; result on my cotton crop that I have no with to buy any other Pertilizer.

NORRISS MERRITT.

Messers. Walter, Whann & Co., Wilmington Del.:

Dear Sirs:—In response to your luquity as to the action and worth of Whann's RawBone Super Phosphate, we teg to say that we have sold it to the best planters of North
Carolina for eight consecutive years. Many of the parties who bought of us eight years
ago are still using it. It has always ranked as among the very best of commercial fertillizers, and has been very popular wherever used.

NOON DISPATCHES.

More Carlist Victories Reported. LONDON, May 3.-The Carlist Committee has received telegrams report-ing great victories by the Don Carlos forces under command of Sabills, over the Spanish government troops at Breda, Lerida and Santa Coloma. The latter place is in the province of Barcelonia. The enemy numbered 4,000 men. They lost five chief officers in the first engagement, and three hundred and fifty men in that at Santa Coloma. Another great vic-tory for the Carlists under Castills is reported from Aragon. The government troops are said to have lost all their artillery and many prisoners. The Alfonzoist General, Delatre, was killed.

MIDNIGHT DISPATCHES.

An Important Supreme Court Des

WASHINGTON, May 3.—The Supreme Court to-day decided the case of the State of Maryland against the Baltimore & Ohio Railroad Company. The State claimed a deferred pay ment of \$500,000 as due for the period between 1867 and 1870, being one fifth between 1867 and 1870, being one fifth of the amount of passenger fare over the Washington and Baltimore branch of the road. The Company refused to pay the amount to the State on the plea that the tax was unconstitutional. This the Court of Appeals of Maryland overruled, afterning the right of the State to the firming the right of the State to the money in question. The Su-preme Court holds that the passenger tax was different from a tax on inter-State commerce.
Also the case of the city of New Orleans to recover of the Union Bank 130,000 dollars which paid under compulsion of a judg-ment given by the provost court of New Orleans in 1862, when the city was occupied by Government troops under General Butler. The argument was that the establishment of the provost court, the appointment of the Judge, and the proceedings in the case before him were invalid because in violation of the federal Constitution which veets the Judicial power of the Government in one Supreme Court and in such inferior courts as Congress may from time to the decision in the case of the grape-shot that the court instituted in this case by authority of the President as commander in chief to hear, try and determine civil causes, was lawfully authorized to exercise such jurisdic-tion as its establishment by military authority was held to be no violation of the constitution at provision referred to above, and it is said that the clause has no application to the abnormal condition of conquered territory in the occupancy of the conquering array. The power to establish by military authority courts for the administration by civil as well as criminal Justices on portions of the insurgent on portions of the insurgent States occupied by National forces is precisely the same as that which exists when foreign territory has been

conquered and occupied by the con-querors. What that power is has sev-eral times been decided. Miscellaneous Items. Both the city and the Louisians Levee Company defaulted on interest due on Saturday.

IMPORTED ONLY BY THE

GUANAHANI GUANO COMPANY,

PETERSBURG, VA.

In offering this FERTILIZER to the Agricultural Community a Second Season we do so with the utmost confidence, feeling satisfied that the high opinion, we formed, and expressed last season based on its Chemical Constituents, have been most satisfactorily borne out by the test, by which all Fertilizers must be judged, that of the Plantation. Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importations during the summer and fail, and having large and well ventilated Warshouses in the city of Petersburg and at City Point, we are enabled to put our Guano on the market, in a condition as to dryness and freedom from lamps, equal to any Manufactured Fertilizer.

in a condition as to dryness and freedom from temps, equal to any annulational Partition.

We solleft a careful perusal of our Circular containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGENTS. Having nothing to conceal, we made no innovation on established mage, by pattishing those letter received unfavorable to our Guano, but careful inquiry in many cases proves that the cause of its failure was not owing to say fault in the Guano, but to those far beyond our control. We have frequently dearn the name comprisints of its kindred Fertilezer, Peruvion Guano, but the concurrent testimony of well known Farmers and Planters from Maryland to the extreme Western counties of North Carolina, justify us in claiming place for our fertilizer Superior to many, and sac, in to North E.

We confidently expect the continued performage of the Agricultural Community and no exertion will be spared on our part to make

Grateful Thousands proclair VINEGAR BITTERS the most wonder ful Invigorant that ever sustained the sinking system.

No Person can take these Bit. ters according to directions, and remain long unwell, provided then bones are not destroyed by minera poison or other means, and vital or

gans wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are a prevalent in the valleys of our great rivers throughout the United States especially those of the Mississippi Ohio, Missouri, Illinois, Tennessee Cumberland, Arkansas, Red, Colo, rado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Ro. anoke, James, and many others, with their vast tributaries, through. out our entire country during the Summer and Autumn, and remarks bly so during seasons of unusua heat and dryness, are invariably ascompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGA". BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the bedy against dis-

Case by purifying all its fluids with Vinegar Bitters. No epidemie can take hold of a syster thus fore-armed. Dyspepsia or I1 digestion, Headache, Pain in the shoulders, Coughs, Tightness of the Chest, Dizziness, Sour fractations of the Stomach, Bad Tast in the Mouth, Bilions Attacks, Palpita tion of the Heart, Inflammation of the Langs, Pain in the region of the Kidney, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Inflammatory and Chroni Rheumatism, Gout, Bilious, Remit tent and Intermittent Fevers, Disease, of the Blood, Liver, Kidneys and Bladde. these Bitters have no equal. Such Do eases are caused by Vitiated Blood.

Mechanical Diseases. - Perso,a

engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKEN VINEGAR BITTERS occasionally. For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erys,

las, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin whatever name or nature, are literal dig up and carried out of the system in a short time by the use of these litters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and is moved. No system of medicine, no ver mifuges, no anthelminities will free the system from worms like these Bitters. For Female Complaints, in young

or old, married or single, at the dawn of womanhood, or the turn of life, these Ton-ic Bitters display so decided an influence that improvement is soon perceptible. Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleans

structed and sluggish in the veins; cleans it when it is foul; your feelings will tell you when. Keep the blood pure, and the least of the system will follow.
